

# Consolor Ltd Environmental Policy Statement

Consolor Ltd are committed to supplying services that meet the contractual, legislative, quality, wellbeing and environmental requirements of its undertakings.

By this policy Consolor Ltd recognises its responsibility towards protection of the environment, and issues this statement as evidence of the commitment of the Directors/Senior Managers and employees to minimising the environmental impact of its operations.

We will achieve our policy by:

- Reducing waste through replacing, reducing, reusing and recycling. We will encourage the use of recycling and re-use where alternatives are available, economical and suitable.
- Promoting efficient use of materials and resources throughout our activities including water, electricity, gas, raw materials and other resources, particularly those that are non-renewable.
- Avoiding unnecessary use of hazardous materials and products, seeking alternatives or substitutions when feasible, taking all reasonable steps to protect human health and wellbeing and the environment when such materials must be used, stored and disposed of.
- Complying with current environmental legislation.
- Encourage all employees to work to an ever improving and environmentally responsible manner.
- Minimizing the consumption of Fossil fuels and natural resources.
